M. L. MACDONALD TELLS SALT LAKE OF NEW ROAD

GIVES STATEMENT TO PRESS OF
PRESENT CONDITIONS
IN NEVADA.

Malcolm L. Macdonald, of this city, who is now in Salt Lake, has the following to say in the Salt Lake Tribune of Friday morning, concerning the Ely-Goldfield railway:

"Malcolm Macdonald, who, as he explained it yesterday while in this city for a few hours, is 'mixed up' with the new Ely to Goldfield line, stated that this new road was a positive certainty, and that it would be constructed. Three surveying parties are still in the field, and they should be through with their work in thirty days. The party of mining engineers who are going over the line with the view of measuring the probable ore tonnage along the proposed route are expected to make their report to the New York end of the proposition during September.

"There are no engineering difficulties anywhere along the line, said Mr. Macdonald. 'The maximum grade does not exceed 1 1/2 per cent. The line will tap really the best mineralized section of Nevada, a region that is not easily reached under existing conditions. It will open Reville, Tybo, Silver Bow, Eden and other sections rich in minerals, and it will pass through the White River, Railroad and Current Creek valleys, whose agriculture and stock-

raising possibilities are full of splendid promise. The line will eventually connect with Salt Lake City, and it naturally means much to your city here."

"When asked about Nevada, Mr. Macdonald said that Nevada was down to a merit base, and is making good in no slip-shop fashion. What hurt the state more than anything else was the failure of banks in the state, this impairing the credit of the state and its citizens. But all the banks which were too weak to endure have now gone, and the institutions doing business at the present time are in the best shape that could be required. The Montgomery Shoshone property, he says, is bigger and better than ever, and he expects it to enter the dividend paying column by the first of the year, or shortly thereafter. The Tonopah Extension company will have its new mill ready for operation by Christmas, the first unit being thirty stamps. All over the state are bright spots which serve to strengthen the confidence of those best acquainted with the resources of the commonwealth.

BOAT DESTROYER LEAVES JUNEAU FOR ESQUIMALT

WASHINGTON, Aug. 7.—The torpedo boat destroyer Paul Jones reported to have been injured by going on the rocks in Alaskan waters, has left Juneau for Esquimalt with the torpedo flotilla, according to information received by the navy department today.

WILL CEASE COINING THE NEW CENT PIECES

PHILADELPHIA, Aug. 7.—The order of the treasury department at Washington to discontinue until further notice the coining of the new 1-cent pieces was received today by the superintendent of the Philadelphia mint. The coining of the new pennies was begun in June and up to the time the order was received today 27,995,000 of the coins had been minted. About 14,000,000 of the coins have already been distributed throughout the country and the remainder will be shipped as rapidly as the demand develops.

LIGHTNING IGNITES BABY'S BED CLOTHES

MARION (O.), Aug. 7.—Lightning struck Charles Kitzmiller's

home last night and ignited the bed clothing in the crib of a sleeping baby, who was not even awakened.

The bolt descended by way of the chimney, traveled along the iron framework of the child's crib and passed down a gas pipe to the cellar.

Mrs. Kitzmiller found the infant still sleeping, with the fire creeping toward its feet.

STOCK MARKET

Yesterday's market savored of weakness. With few exceptions the stocks were raided upon with the result that there was a falling all along the line. Tonopah Mining suffered to the extent of 7 1/2 points, Montana-Tonopah went down two points, while Midway and Belmont each suffered a point. Extension, unlike the others, advanced a point.

The Goldfields came in for their share of decrease. Consolidated declined in like manner and to the same extent as Tonopah Mining. Florence fell off 2 1/2 points and Columbia Mountain declined a point. Booth remained as it was the day previous, as did Combination Fraction.
